

Sentence Parsing Assignment  
Liam Leece

1 - 4.

The genie, ~~that~~ <sup>looks</sup> like an elephant, grants  
tree wishes but at a heavy cost

Definitions

S - a declarative clause

NP - a noun phrase

VP - a verb phrase

DT - a determiner, like a, an, or the

NN - a simple noun

PP - a prepositional phrase

IN - a preposition

VB - a present tense verb

JT - an adjective

CONJP - a conjunction phrase

CC - a conjunction

within the sentence. A downside of it is that for me there were many different ways it could be parsed for my sentence which was confusing at first. Lastly the parse tree was very useful because it gave the most information about the sentence but it often felt very cluttered with a complex sentence like the one shown above. This made it hard to start with and a little perplexing.
